

Missouri Lead Testing Areas

August 9, 2004

As additional, more accurate data is obtained, Universal Testing areas may change. Updated maps are published each April and are available at:

www.dhss.mo.gov/ChildhoodLead/index.htm

Please note any updates to your service area as it may change your requirements under statute. Please see area specific maps for Jackson County, Kansas City, and St. Louis County for Universal Testing areas by Zip Code.

Universal Testing - Annual testing for children less than 6 years of age.

Targeted Testing - Medicaid children tested at 12 and 24 months.
Annual screening questionnaire, testing based upon positive responses.
